

The Keystone Index™ 5 Annuity

A Smart Choice for Safety Conscious Individuals Seeking Financial Security and Growth

Keystone Index™ 5 Annuity

Single Premium Deferred Equity Index Annuity
(Policy form may not be available in all states.)

Your annuity will earn interest based upon the allocation of your premium to one or more of the different Index Interest Strategies and/or the Fixed Interest Strategy. The annuity also provides a guarantee that your premium, less withdrawals, will earn interest at a guaranteed minimum rate over the length of the contract. At time of withdrawal, surrender or election of a settlement option, your annuity value will be the greater of the Annuity Value

of the Index Interest Strategies and Fixed Interest Strategy or the Minimum Guaranteed Values described below, reduced in either case by the applicable Surrender Charges. See Surrender Charges on back.

The following is a description of the available Strategies—a Fixed Interest Strategy and three Index Interest Strategies. Rates and Caps are subject to change; please consult your insurance advisor for current and guaranteed rates.

Strategy Description

Annual Point to Point – Capped Strategy: Interest credited under this Strategy for a Contract Year will be equal to the percentage change in the S&P 500¹ Index for the Contract Year, subject to an Index Interest Rate Cap and a minimum floor of 0% when the change is negative.*

Annual Point to Point – Participation Rate Strategy: Interest credited under this Strategy for a Contract Year will be equal to a percentage (the Participation Rate) of the change in the S&P 500¹ Index for such year and a minimum floor of 0% when the change is negative.*

Annual Monthly Average – Capped Strategy: Interest credited under this Strategy will be the Index Change as described below, subject to an Index Interest Rate Cap and a minimum floor of 0% when the change is negative.

The Index Change for a Contract Year will be equal to the Monthly Average S&P 500¹ Index Value (as measured on the twelve monthly contract anniversary dates of the Contract Year) minus the S&P 500¹ Index Value on the first day of the Contract Year, then divided by the S&P 500¹ Index Value on the first day of the Contract Year—stated as a percentage.*

Fixed Interest Strategy – Annual compound interest will be credited at a stated rate under this Strategy for each Contract Year. The Initial Interest Rate will be guaranteed for the first Contract Year.*

* The Index Interest Rate Cap, Participation Rate, and Fixed Interest Rate are guaranteed for the first Contract Year. Each year after the first, Reliance Standard will declare the Index Interest Rate Cap, Participation Rate, and Fixed Interest Rate for the subsequent Contract Year and that Cap or Rate will never be below the Minimum Guaranteed Rate or Cap.

Minimum Guaranteed Values

Your annuity contract provides a Guaranteed Minimum Annuity Value equal to 100% of the premium paid, less withdrawals, compounded annually at 1%. If the annuity is surrendered during the surrender charge period, the Guaranteed Minimum Annuity Value will be reduced by the applicable surrender charge. See Surrender Charges for Early Withdrawals. However, if the Minimum Contract Value, which is equal to 87.5% of your premium, less withdrawals, accumulated at 1.00% per annum would exceed the Guaranteed Minimum Annuity Value less any applicable surrender charges, the Minimum Contract Value will instead apply. In either case, the minimum guaranteed value will be reduced by any applicable premium tax.

Reallocation of Values

The premium that you pay will be allocated to the Index Interest Strategies and the Fixed Interest Strategy in accordance with the selections made in your application. On each contract anniversary, you may reallocate your annuity value among the strategies then available so long as you notify Reliance Standard at least two weeks before each contract anniversary of such reallocation. The minimum amount you may reallocate is \$5,000 and \$5,000 must remain in any one strategy. Reallocation will be subject to the available strategies at that time.

Penalty-free Access

You can withdraw up to 10% of your premium paid in the first year, and after the first year, up to 10% of the annuity value each year with no surrender charges. Withdrawals may be taken either as a lump sum or spread throughout the Contract Year. Systematic withdrawals may only be taken from the Fixed Interest Strategy. No more than one Penalty Free Withdrawal request may be made during any Contract Year. The amount of each request must be at least \$500. However, if your withdrawals exceed 10% of the annuity values in any contract year, surrender charges will apply to the excess amount withdrawn in that contract year.

Surrender Charges for Early Withdrawals

Should you decide to withdraw more than the penalty-free amount allowed in any one year during the first five years of your contract, the excess amount withdrawn will be subject to surrender charges as follows.

Surrender Penalties

Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
9%	8%	7%	6%	5%	0%

Qualified Nursing Care Benefit

To access your funds if you are confined to a qualified nursing home or hospital, the annuitant must:

- Be admitted to a qualified nursing facility for at least one day following the end of your first contract year and remain confined to the facility for 90 consecutive days.
- Have been age 74 or younger when your contract was issued.

If you are the annuitant and meet both conditions, you may withdraw up to 25% of your annuity value penalty-free in each year that you are confined to a qualified nursing home or hospital.

Terminal Illness/Condition Benefit

You may access your entire annuity value penalty-free in the event that, after your first contract year, you are initially diagnosed as having a terminal illness by a qualified physician. Terminal illness means a condition that is reasonably expected to result in death within twelve months. If you are not the annuitant, the annuitant must qualify in order for this benefit to apply.²

Issue Ages:	Age 0 to 85
Minimum Premium:	\$10,000
Maximum Premium:	\$500,000 (premium over \$500,000 requires prior approval.)

Ownership Requirement

The owner must also be the annuitant, except in instances where a non-natural entity, such as a trust, is named as the owner. Joint owners must also be joint annuitants.

Death Benefit

Your annuity contract's death benefit is payable to your beneficiary(ies) upon your death. Your policy's death benefit will be equal to the greater of the annuity value or the guaranteed minimum values stated in your contract.

Traditional IRA and Roth IRA

You may transfer or rollover funds from IRAs or qualified pension or profit sharing plans into your Keystone Index Annuity. For more information, please consult our Traditional IRA or Roth IRA Disclosure Statement for a complete explanation of the options and distribution requirements of each. If you purchase an annuity in an Individual Retirement Account (IRA) or Roth IRA, you should be aware that the annuity offers no additional tax deferral since IRAs already provide tax-deferred status. Accordingly, you should purchase an annuity in an IRA only if one or more of the features of the annuity, such as minimum guarantees, death benefits and life income options, are of value to you.
